The Diversity Matters Insights Audit programme

Taking care of
everything, for
everyone

Here at **Outsource UK**, we believe that adopting genuinely inclusive recruitment practices requires businesses to support people from all walks of life in their career searches. After all, achieving total inclusion means considering everyone, and to ensure that everyone gets a fair chance, we enable underrepresented groups to have access to equal opportunities by adapting company hiring processes.

Helping you make a difference

There is no 'one size fits all' approach to candidate attraction, screening, interviewing or hiring practices. So to ensure a level of consistency, **Outsource UK's Diversity Matters Insights Audit Programme** supports underrepresented talent pools – those who frequently miss out on opportunities in standard recruitment processes. We help people

secure the role they've longed for, and bring about positive change and a culture of innovation within businesses.

Tailor-made approaches

As companies begin to embrace inclusive recruitment, it is becoming apparent that a lack of agreement exists over who should be responsible for developing the culture of a business: Management, HR, or Marketing departments? Through our Diversity Matters Insights Audit programme, we will take care of everything for you; from the initial audit of your current recruitment processes to coaching your hiring community. We can also help you set up targeted attraction campaigns and create bespoke interview protocols; we can even connect you with the right partners to support you with specific recruitment initiatives.
