Umbrella Companies List

Choosing the right Umbrella Company for you!

Choosing the right Umbrella Company for you!

If you're choosing to use the services of an Umbrella provider, you'll know that there are hundreds to choose from. However, it's really important to ensure that you pick the right company for your particular circumstances and, most importantly, that you pick a company that operates compliantly and doesn't offer any remuneration schemes that could ultimately put you at risk.

Outsource completes a comprehensive sign-up and ongoing audit process for all Umbrella providers that we work with. We run quarterly spot check audits on a selection of randomly selected pay slips to ensure that the correct levels of tax and NI are collected and that no un-compliant, or tax evasive, schemes are being operated.

We will happily work with any FCSA accredited Umbrella provider who agrees to participate in our ongoing audit processes.

Below is a list of Umbrella providers we have worked with recently, with some details about their services and costs. However, all Umbrella providers offer a range of services and you should contact them directly to find out which company offers the best option for you.

Although our Contractor Care team can't assist you in choosing an Umbrella Provider, they are more than happy to answer any questions you may have.
